TREE TRAINING (DIY)

- Structural pruning while trees are young results in healthy mature trees for future generations.
- Choose a good-quality pruning tool and plan your cuts carefully, trimming just outside the branch collar.
- Select a dominant leader to develop as the trunk and maintain lateral branches in a scaffold structure.

Prune In June

Save 10% on tree trimming services quoted and confirmed in June.

Grow Your Greenspace

Receive a \$50 degroot's gift card for tree service work quoted and confirmed in July.

*Conditions Apply.

"Stumped"

Save 10% on stump grinding services or a free stump grinding with your tree removal quoted and confirmed in August.

TREE CARE YOU CAN TRUST

- Arboriculture graduates are knowledgeable in urban forestry, climbing techniques, and tree identification.
- Experienced arborists are competent in tree felling, proper pruning, and equipment operation.
- Safety orientation includes ongoing training and protective devices. Inclusive insurance provides comprehensive coverage.

National Tree Day was first officially recognized in Canada in 2011. This day serves as a celebration for all Canadians to appreciate the great benefits that trees provide us - clean air, wildlife habitat, reducing energy demand and connecting with nature. **Wyoming Tree Service** offers a multimedia educational program entitled "Trees are Good" for elementary aged school children recognizing the value of trees. On the Wednesday of National Forest Week this September, celebrate **National Tree Day**.

WATERWORKS

- Keep the soil around your trees moist, but not water-logged. When the soil is dry below the surface of the mulch, it is time to water.
- Water trees using a sprinkler or watering bag at least once a week (barring rain) and more frequently during hot, windy weather.
- Continue until mid-fall, tapering off as lower temperatures require less-frequent watering.

FIND US ON FACEBOOK!

Find out about contests and promotions, get to know members of our team, learn about our equipment, discover tree care tips and trivia, and enhance your environmental awareness.

A WALK IN THE WOODS

- It's a great way to get some exercise and reduce stress.
- See how many varieties of trees you can identify. A book or smartphone app can help you learn more.
- Take your family on a scavenger hunt to find different trees, nuts, & fruits.

PLAN TO PLANT

- As the saying goes, "The best time to plant a tree was 20 years ago. The second best time is now." Plant a tree as a memorial, as a gift or simply to enhance your landscape.
- Choose your species and location carefully, maintaining awareness of underground utilities.
- Dig a broad, shallow hole. Straighten tree in hole, filling with soil up to the trunk flare. Apply a thin layer of mulch.

WHAT PEOPLE ARE SAYING ABOUT WTS

- Thank you! Wonderful service. – *Christopher, Sarnia*
- I wish to sincerely thank and commend you and your team for your diligence and the quality of work that was done to remove the two dead trees near my property. – *Alex, Camlachie*
- Guys did an amazing job - NICE clean up! – *Harvey, Sarnia*
- The entire crew that worked on our yard was exceptional. – *Lyndsay, Alvinston*
- Very pleased with work your crew did for us...Very professional and safety focused" – *Rick & Mary, Sarnia*
- The men that came to our home were so professional, so polite... They improved my knowledge of what I needed to do to keep my other trees healthy. – *Brenda, Camlachie*
